5th - Payer

6th - Academic

Experts in demand by field

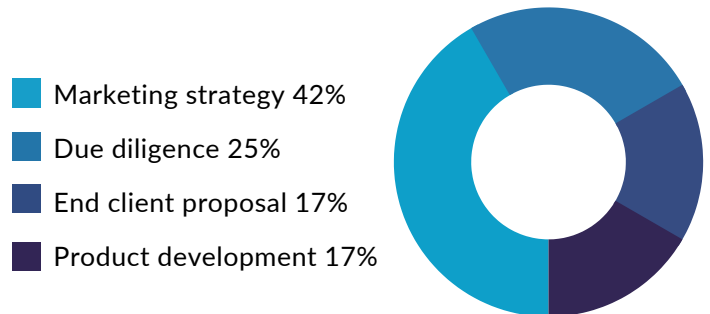

Expert connections by country

This map highlights the 30 countries our AI sourced experts from based on customer requests.

Customer project outcomes

— “ —

Matt and Vivien were great to work with on this project. Their response times were always fast which was important to us considering the tight turn around time and the standard of the experts they identified was very high.

— ” —

Consultant at a leading strategic market access consultancy

Project highlight

We supported a healthcare strategy consultancy exploring trends and the competitive landscape in precision livestock farming for dairy and beef cattle in the US, UK, Brazil, Australia, Germany and New Zealand by connecting them with local subject matter experts.
